

In Flames, Come Clarity

Rushing through 30
Getting older every day
By two
Drawing pictures of innocent times
Could you add colour inside these lines?
I want you to lead me
Take me somewhere
Just don't want to live
In a dream one more day
I want you to lead me
Take me somewhere
Just don't want to live
In a dream one more day
Sure it would change my perspective
I'm certain I would change today
I'm certain it would change our ways
Would things fall into place?
I want you to lead me
Take me somewhere
Just don't want to live
In a dream one more day
I want you to lead me
Take me somewhere
Just don't want to live
In a dream one more day
[Solo]
I want you to lead me
Take me somewhere
Just don't want to live
In a dream one more day
I want you to lead me
Take me somewhere
Just don't want to live
In a dream one more day
Take me somewhere
Just don't want to live
In a dream one more day
Take me somewhere
Just don't want to live
In a dream one more day
Take me somewhere
Just don't want to live
In a dream one more day
