

In Flames, Like You Better Dead

I can be as angry as I want to be
Just watch me burn (need to be motivated)
I think you're way too cold
Just watch and learn
I'll never sleep here anymore
My house is not my home
I like you better dead
I'm better off alone
Destiny, will you cure me?
Trust, will you age with me?
Hear me scream as I face tomorrow
Your vision may be in colour, but you look all pale
In these times we should be learning but with you I'll always fail
I need to save myself before I drown
It took so long to see
The world your mind creates
It pushes me under
