Incognito, Too Far Gone

(J.P. Maunick/G. Harvey) He wanted to believe that the Field was his to play Say's he's happy that she's gone away Any fool can tell she's here to stay From his mind she would never stray He's trying to hide it But inside the pain can't be denied I guess he's too far gone No he's spendin' all his time tryin' To tell the world he's free Depp inside he know he'll never be And now it seems that he's lost the key He's like a raft driftin' out at sea He's tryin' to to fake it But the sadness is all that he can feel I guess that he's too far gone He cannot see that as he talks He's takin' a road that is goin' nowhere There's no tellin' hime, he's too far gone He's walkin' down the street lookin' sure of himself today He's never short of things to say In his mind he knows he's lost his way It's the proce he has to pay. Gone too far Too far gone Gone too far Too far gone
