

InDespair, Under Cold Sky

VERSE 1:

Through the years on dateless roads
I saw things no man should witness
I talked to nameless gods
Embraced by darkness

With my very own blind eyes
I saw present, past and future
I beheld the things to come
And watched us wither

PRECHORUS:

There is no judgment, no seven trumpets
We will just fade away

CHORUS:

Under cold sky we all shall die
Under indifferent, pale sun

VERSE 2:

I was there when last of us
Closed their weary eyes forever
I saw cities turn to dust
Unanswered prayers

When the ashes settled down
And tranquillity took over
We were just a vague mirage
A blurred reflection

BRIDGE:

Vain
It was in vain
Our pursuit of greatness
Bane
It brought us bane
