

# Inhaler, Cheer Up Baby

When i think of all the things  
We didn't do  
God, i can't help but it on you  
How to cure these February blues?  
You know it's not too late  
She said either way

All you do  
Cheer up baby  
You're not on your own  
Then she said  
All you do  
Cheer up bay  
You're not on your own  
Sinking like a stone

And i lie on my bed  
Under the covers  
Never ever to be discovered  
And she walked into my room  
Offer me a better view  
I had no clue

All you do  
Cheer up baby  
You're not on your own  
Then she said  
All you do  
Cheer up bay  
You're not on your own  
Sinking like a stone

You wish for something else  
If its more than a friend  
Smoke in the air  
All it means to an end

All you do  
Cheer up baby  
You're not on your own  
Then she said  
All you do  
Cheer up bay  
You're not on your own  
Sinking like a stone
