

# Inhaler, When It Breaks

What's it gonna take for this storm to break  
You don't know  
What you've got until it's taken away  
I am not too scared to turn and face it  
Well iam just waking up  
It's true to chaneing

I like this feeling  
I am not dreaming anymore  
Upstairs  
It's leaking  
Gonna have to kick in the door

When it breaks  
I know you're gonna be there  
I know you're gonna be there  
Wit the stoorm hanging over this place  
You're gonna wanna see it when it breaks  
I know you're gonna be there  
I know you're gonna be there  
I wanna see your beautiful face  
You know You're gonna wanna see it when it breaks

How much does it ache  
When your bones break  
It seems so hard to tell  
Whats real ir fake  
Can't let this moment go to waste

I love tis feeling  
We're not dreaming anymore

When it breaks  
I know you're gonna be there  
I know you're gonna be there  
Wit the stoorm hanging over this place  
You're gonna wanna see it when it breaks  
I know you're gonna be there  
I know you're gonna be there  
I wanna see your beautiful face  
You know You're gonna wanna see it when it breaks
