

# Inna, Ready Set Go

Dangerous, beautiful and furious  
Baby, we got fast-lane love  
Heading for a crash and burn  
This energy, let it take a hold on me  
I know it's a red flag crush  
But I really need that rush  
Ah, going with a speed of light tonight  
I forget what's wrong or right  
This high I'm never coming off  
Ah, turn it up on overdrive  
Sleepless, always running wild  
Don't know how to take it slow  
To the moonli-light we go  
We pick it now down low, low  
On the highway, we will never take it slow  
Ready, set, go  
In the moonli-light we know  
Never felt so, felt so pure  
On the highway, we will never take it slow  
Ready, set, go  
In the moonli-light we know  
(Taking it slow)  
In the moonli-light we know  
Adrenaline is my kind of medicine  
Making me fall right off track  
I don't wanna turn my back  
Perfect dream, bringing out the bad in me  
Something I can't live without  
I'ma wear it like a crown  
Ah, going with a speed of light tonight  
I forget what's wrong or right  
This high I'm never coming off  
Ah, turn it up on overdrive  
Sleepless, always running wild  
Don't know how to take it slow  
To the moonli-light we go  
We pick it now down low, low  
On the highway, we will never take it slow  
Ready, set, go  
In the moonli-light we know  
Never felt so, felt so pure  
On the highway, we will never take it slow  
Ready, set, go  
In the moonli-light we know  
(Taking it slow)  
In the moonli-light we know
