## INXS, Wishy Washy

I got a place with a view You can see the cars As they travel down the freeway To clubs and bars There's a woman downstairs With matt-grey hair And she smiles when she tells me There's no room for me here

They've got it in the city They've got it in the country But here in the suburbs It's all so wishy-washy It's all so wishy-washy

I got another place
This time with a fireplace
And a woman can come around
Write poetry and feel safe
I said it's good for me now
But I'm not being fed
I said it's good for me now
But I'm not being fed

They've got it in the city They've got it in the country But here in the suburbs It's all so wishy-washy It's all so wishy-washy

I got a place with a view You can see the cars As they travel down the freeway To clubs and bars There's a woman downstairs With matt-grey hair And she smiles when she tells me There's no room for me here

They've got it in the city They've got it in the country But here in the suburbs It's all so wishy-washy It's all so wishy-washy Aaaahh...WISHY-WASHY!
