

# Iron Savior, Dragon King

Listen to the story  
Of the dragon and the knight  
The quest for the ancient  
The last one of his kind  
Hidden in the mountains  
Across the seven seas  
In oblivion

Bold and defiant  
The brave knight did embark  
On to the realm of fire  
Gleaming in the dark  
A seeker of the knowledge  
The power and the might  
Of the ancient one

To end the tyranny  
The killing and oppression  
He has been carrying the scent  
To take his fire  
On to the tyrant's wicked lair  
To set his people free  
And gain the final victory

Dragon King - Born at the outset of the time  
Dragon King - In the amber of the world  
Dragon King - Ruler of the fire  
Spread your wings - Spread your wings and ride up to the skies

Deep below the ever rocks  
As the traditions told  
He found the King sleeping in the cold  
He spoke the words of magic  
To make the wyvern rise  
And then he opened his eyes

On wings of fire  
They rode atop the world  
Between the heaven and the seas  
And in that very night  
His mind was set at ease  
For a moment  
A moment in time

Dragon King - Born at the outset of the time  
Dragon King - In the amber of the world  
Dragon King - Ruler of the fire  
Spread your wings - Spread your wings and fly away

[Solo Piesel]

Just like a thunderbolt  
Descending on the foe  
He spit his fire on the plains  
And as the tyrant  
Had perished in the flames  
He spread his wings again  
To vanish in eternity

Dragon King - Born at the outset of the time  
Dragon King - In the amber of the world  
Dragon King - Ruler of the fire  
Spread your wings - Spread your wings and ride up to the skies

Dragon King  
Dragon King - Ruler of the fire  
Dragon King - Spread your mighty wings and fly away  
Spread your wings and ride up to the skies

Dragon King - Dragon King  
Dragon King ascend... forevermore!
