

# Iron Savior, Stand Against The King

[Music by Kustner, Lyrics by Sielck]

In a forgotten land  
where evil is enthroned  
the forces gathering  
to retake what they have owned  
10.000 men are standing side by side  
10.000 knights are getting ready to fight

stand against the king  
rebellion will begin  
strike him down  
burn the crown  
blood is on his hands  
justice to the land  
no more lies  
rebellion will arise

under the reign of fright  
too many nights of blood and tears  
the streets are rising up  
know the time to strike is near  
coming near

10.000 warriors are riding out  
10.000 blades remove all traces of doubt

stand against the king  
...

stand against the king  
bring him down  
smash the crown  
rebellion will arise

bloodshed and atrocities  
are lashing on the land  
the word's been spread concealed  
but know it's been revealed  
the fate of the king is sealed  
with a mighty crash of thunder  
the opponents will collide  
the blood toll will be high  
but still it's worth to die  
for freedom is what they defy

[solo by Piesel]

10.000 men are standing  
side by side  
...

stand against the king
