Ivy, Ive Got A Feeling

Oh yeah

Baby, what can i do?
I've been, out searching for you.

I've got a feeling
all i need is a love thats true

Baby, what can i say?
I know, this wont go away

I've got a feeling
all i need is to see today

I've been watching the world pass by
all around me
I was letting the days go by
till you found me

Baby, what can i do?
Ive been, out searching for you

I've got a feeling
all i need is a love thats true

I've been watching the world pass by
all around me
I was letting the days go by
till you found me
