

# Jack White, Connected By Love

woman, don't you know  
what I'm suffering from?  
easy my pain  
make it wash on with the rain  
relieve me and put it up on your shelf  
take it away  
and give it to somebody else  
cause I know we're connected by love  
yes, I know  
we're connected by love  
connected  
connected by love

Friend of mine  
you seem to know me best  
you chose me out of all the rest  
take me home with you  
and help me forget  
let's take the worst and somehow turn into the best  
cause I know we're connected by love  
yes, I know  
we're connected by love  
connected  
connected by love

what love I donne  
I have pushed away everyone  
help me forget  
let's put it all to bed  
forgive me  
and save me from myself  
don't forsake me woman  
and go and chose somebody else  
cause I know we're connected by love  
yes, I know  
we're connected by love  
connected  
connected by love
