

Jackie Lomax, Be With You

Whenever I call, please be there to answer me
I wanna be with you
Wherever I look, please don't turn away from me
I wanna be ' please don't turn away '
I wanna be with you
And you know that's true
I just wanna be with you

I don't need no other woman on my scene
How can I be roaming
When my pastures seem so green
I don't need no other woman on my mind
I ain't got the time to even raise the blind

Whenever I fall, try to bring a smile to me
I wanna be - wanna bring a smile -
I wanna be - please don't turn away -
I wanna be with you
And you know that's true
I just wanna be with you
'Cause nobody else, nobody else will do
I just wanna be with you
