

# Jackie Lomax, I'm Gonna Be There

When they all give up on you - I'm gonna be there  
When they all give up on you - I'm gonna be there

Oh no - don't say maybe  
Tell me yes or no  
Don't need to guess at love  
You know I need to know  
I know you're that kinda girl  
Who wants love to last till the end of the world

When they all give up on you - I'm gonna be there  
When they all give up on you - I'm gonna be there

Oh yes - I have seen it  
Many many times  
Some guy tells you 'this is forever'  
And then he runs down the line  
I know I'm that kinda guy  
Who never ever wants to see you cry

When they all give up on you - I'm gonna be there  
When they all give up on you - I'm gonna be there

When they all give up on you - I'm gonna be there  
When they all give up on you - I'm gonna be there

Oh my - what a woman  
You know she's hard to please  
She turns me on like a radio  
And make me weaken at the knees  
I know she's that kinda girl  
Who never wants to love until the end of the world

When they all give up on you - I'm gonna be there  
When they all give up on you - I'm gonna be there
