

Jackson United, Down To You

No notice of the world around you
Take for granted it revolves around you
Not what you're shooting for
Crashing back to the shore

Smart mind, a little bit racist
No respect even in your own self
Instantly you're gratified
Self serve to satisfy

All done to you
All the same to you

Got some pills to make you happy
Hope I don't bore you
Forever ill you know you might be
I won't ignore you

All done to you
All the same to you
All done for you

Dying in your bed
Lying in your head
It's all the same to you
Lying in your bed
Dying here instead
It's all been done to you

No notice of the world around you
Take for granted it revolves around you
Instantly you're gratified
Self serve to satisfy

All done to you
It's all the same to you
All done to you
No different to you
