

# Jacob Butler, Come My Way

When you're aching with desire  
And you can't put out that spark  
I know, you've been waiting for this moment  
To ignite your life  
When you're standing at the station  
And your brain's about to storm  
And the eyes of the whole nation  
Holding hearts

Come my way, come my way  
You should stop the fears that's on your my mind,  
Embrace the moments that define us  
Come my way,

Yeah you tell me devastation  
And you say \_\_\_ your balls  
There's no time for indecision  
Listen,

Come my way, come my way  
You should stop the fears that's on your my mind,  
Embrace the moments that define  
Come my way,

Why so afraid?  
I will wait for you come my way

Come my way, come my way  
You should stop the fears that's on your my mind,  
Embrace the moments that define  
Come my way
