

Jacob Young, Rock Me Steadily

B and Mil is something to me
Sometimes it's hard for one to come out so clean
But if you just stop talkin' the s-h-i-t
I'll tell you my friend what it means to me
I've met a lot of girls who have come my way
And I've got to admit, baby, I've got to say
Only few have ever made it up the face of the wave
And some of them I've taught how to behave
So here's that little secret everyone of you wants to know
So open your ears and listen to this flow

CHORUS:

You've gotta rock me steadily and rock me slow
I know you're aware I'm only 21old
So listen one more time it's something low
Rock me steadily and rock me slow

BRIDGE 1:

And rock me steadily and rock me slow
If you were rich instead and letting it grow so
Please stop pushing baby let it go
And rock me steadily and rock me slow

So playing along the court back in the day
I had a few of these babies come around my way
They tried real hard they fought so tough
I pulled their card, they weren't tough enough
So if you wanna hold me baby make it right
Follow me down by the tunnel that leads to the light
I've told you once, I've told you twice
Give it a shot baby and roll the dice
So here's that little secret everyone of you wants to know
So open your ears and listen to this flow, yeah

CHORUS REPEAT

BRIDGE 2:

And rock me steadily and rock me slow
Please tread lightly on my heart and soul
Struck up and grip it
Hold me oh so tight
And rock me steadily all through the night
