

Jade Valerie, Always Mine

It's good to see you happy
It's good to see you strong
It's good that things are different, baby
It's good that we were wrong

You finally found another
We're finally moving on
But a part of you thats only mine
In my heart is living strong

Only mine
Always mine
Only mine
Always mine
At the other end of time
Not Goodbye just behind us

Only mine
Always mine
Only mine
Always mine
At the other end of time
Not Goodbye just behind us
Dadadadada

They say that time's a healer
But some waters run to deep
Theres a part of you that I let go
And a part of you I keep

My lover and a stranger
A place I used to live
The part of me that learned to love
But it's learning to forgive

Only mine
Always mine
Only mine
Always mine
At the other end of time
Not Goodbye just behind us

Only mine
Always mine
Only mine
Always mine
At the other end of time
Not Goodbye just behind us
Dadadadada

At the other end of time
Before we said goodbye
At the other end of time
Before we learned to lie
At the other end of time
Those day will never die
The other side of you
That only meant to live
Thats only meant for me

I dont wanna know
Dont need to know
Who cares about right now
I dont wanna go

Dont need to show
Dont care about right now

Only mine
Always mine
Only mine
Always mine
At the other end of time
Not Goodbye just behind us

Only mine
Always mine
Only mine
Always mine
At the other end of time
Not Goodbye just behind us
