

# Jaden Smith, Photograph

She found a photographer  
Known faces make her mad  
Don't carw about all our fights  
Or memories we had it in our bones  
Baby girl, we're out of control  
Wasting our Energy

Woke up in Tennessee  
Only you can piss me off  
I am staring at thet hole inside my heart  
But all we have is us  
Cause you  
You just found a special part of me  
That's sinkin me by pulling me down  
And you are in the middle of the ocean  
And i need you right now  
If i can 't love you i guess i will drown

She found a photographer  
These tears can't hold tchem back  
And when i sleep at night  
The dreams i have fantasize of yu  
Tell me what to sdo

Though i might write a song  
Hoped you might sing along  
O girl, my head is gone  
Our Paris stay O  
Incredible i know  
Tell me where to go

Cause you  
You just found a special part of me  
That's sinkin me by pulling me down  
And you are in the middle of the ocean  
And i need you right now
