

Jag Panzer, Black

[lyrics by Harry Conklin]

Born out of flames descending upon the earth
The master of games for what they are worth
One with the darkness, one with my soul
Black is all power, black is control
It is my control

Black is the meaning of life
I hunger for the black of the night

Black
The color of greed
The answer of hope
The essence of light

Black
The heart inside you
The soul inside me
The power of night
Tis the answer for life

I hold the keys to unlock your dreams
Pleasures beyond this world has ever seen
I am desire. I am control
I am the light and darkness inside your soul
I'm inside your soul
