

Jake Bugg, Lost

It all starts with me
And all of my needs
I'll be waht you want
Do you want me to be heaven

Your high and i am low
And this is much she's broke
I hold out for more
While i am here
On the road to heaven, heaven

Suddenly i see tyou everywhere
Youre always in my head
Never besn so lost
Talk to m it's like you're never there
It's like you never care that i've been so lost
Suddenly i see tyou everywhere
Youre always in my head
Never besn so lost
Talk to m it's like you're never there
It's like you never care that i've been so lost
thet i've been so lost

starts with the hurt
the memory that were
alwyas too much
will i ever learn, heaven
i am losing control
it's hell i my soul
and i am only tough
when i am drinking my way to heaven heaven

Suddenly i see tyou everywhere
Youre always in my head
Never besn so lost
Talk to m it's like you're never there
It's like you never care that i've been so lost
Suddenly i see tyou everywhere
Youre always in my head
Never besn so lost
Talk to m it's like you're never there
It's like you never care that i've been so lost
thet i've been so lost
