

# Jake Bugg, Taste It

Fill my head with the future  
Fill my eyes with the sky  
Whole my life  
I've left behind  
Never felt more alive

I speed conversation  
Speed it all along  
Look in your eyes  
Like I've said \_\_\_\_  
But I never felt more alive

I can taste it  
In my mouth  
It's so bitter sweet  
It's nothing in your eyes \_\_\_\_  
It should be easy,  
But it's hard to leave

Without need a fire zeppelin  
You don't know if you don't try  
Look the way I should  
But I walk the hood  
But I've never felt more alive

Talk about the imagination  
Think about the things you are  
You are close to sky \_\_\_\_  
But I never felt more alive

I can taste it  
In my mouth  
It's so bitter sweet  
It's nothing in your eyes \_\_\_\_  
It should be easy,  
But it's hard to leave
