

James Blunt, Breathe

Take this, bloody war along the way
I'm lost for words to say
Will we meet the dawn

Take these, muddy thoughts that I'm at wars
I'm not ready for the call
Then we'll meet the dawn

I just take what someone wants
Prey been swimming in?
break what I don't need
Its nice to watch somebody breathe, for me
I am tired on my own

Well now, come sit next to me
I'm not sleeping with the bride to be
Been wasting time like it just doesn't matter very much
so I'm happy for the company

And we're sat here for eternity
Don't want no family
and I'll thank you very much
I am flattered by the touch
When you say that you're in love with me

and won't you breathe, for me
I am tired on my own

Release me
To the horror of the end
I lost myself again
in the mirror of the past

Let me, let me scratch at my own skin
I'm dying to get in
To the mirror of the past

I just take what someone wants
Prey been swimming in?
break what I don't need
Its nice to watch somebody breathe, for me
I am tired on my own

Well now, come sit next to me
I'm not sleeping with the bride to be
Been wasting time like it just doesn't matter very much
so I'm happy for the company

And we're sat here for eternity
No wife and no family
and I'll thank you very much
I am flattered by the touch
When you say that you're in love with me

And won't you breathe, for me
I am tired on my own

And won't you breathe, for me
I am tired on my own

Well now, Come sit next to me
I'm not sleeping with the bride to be
Been wasting time like it just doesn't matter very much
so I'm happy for the company

And we're sat here for eternity
Don't want no family
and I'll thank you very much
that I'm flattered by the touch
when you say that you're in love with me

And we're sat here for eternity
Don't want no family
Been wasting time like it just doesn't matter very much
so I'm happy for the company

Won't you breathe, for me
I am tired on my own

And won't you breathe, for me
I am tired on my own
