James Blunt, I Told You

I said that I was numb
but I was aching in my bones

the panic in my heart is
hard to breath to
this the kind of thing
they never teach you

I never thought I'd
ever have to leave you
on your own

baby take care of your heart
every day that I am not whit you
if you ever scared of the dark
remember I told you
darling I will never be far
wherever you go
what you do
baby I was there from the start
remember I told you

honestly, it hurts too much to say this
so, I will write it down
and you can save it
and read it
when I am nor around to say it for myself

savour very moment
cause hey go fast
the fireworks are bright
because they don't last
but promise me you'll
walk along your own path
no one else's

baby take care of your heart
every day that I am not whit you
if you ever scared of the dark
remember I told you
darling I will never be far
wherever you go
what you do
baby I was there from the start
remember I told you
