

# James Blunt, One Of The Brightest Stars

One day your story will be told  
One of the lucky ones who's made his name  
One day they'll make you glorious  
Beneath the lights of your deserved fame.  
And it all comes round  
Once in a lifetime like it always does  
Everybody loves you cause you've taken a chance  
Out on a dance to the moon  
Too soon

And they'll say told you so  
We were the ones who saw you first of all  
We always knew that you were one of the brightest stars

One day they'll tell you that you've changed  
Though they're the ones who seem to stop and stare  
One day you'll hope to make the grave  
Before the papers choose to send you there

And it all comes round  
Once in a lifetime like it always does  
Nobody loves you cause you've taken a chance  
Out on a dance to the moon  
Too soon

And they'll say told you so  
We were the ones who saw you first of all  
We always knew that you were one of the brightest stars

And they'll say told you so  
We were the ones who saw you first of all  
We always knew that you were one of the brightest stars
