

# James Blunt, Some Kind Of Beautiful

It's the end of the road  
And I'm hanging by a wire  
On a street with no name  
And my feet are getting tired  
You set me free  
Set me free

I feel like star when we do it like this  
A shot in the dark but I know I can't miss  
The heavens are far, but they've given me wings  
It's some kind of beautiful  
Some kind of beautiful  
I'm lost in your eyes and it's five o'clock  
Where did the night go? I can't stop  
Heaven's a place where the lines get crossed  
It's some kind of beautiful  
Some kind of beautiful

And I searched through the fire  
'Cause I knew I was getting closer  
In the flames I found love  
And at last the journey's over  
You set me free  
You set me free

I feel like star when we do it like this  
A shot in the dark but I know I can't miss  
The heavens are far, but they've given me wings  
It's some kind of beautiful  
Some kind of beautiful  
I'm lost in your eyes and it's five o'clock  
Where did the night go? I can't stop  
Heaven's a place where the lines get crossed  
It's some kind of beautiful  
Some kind of beautiful

Yeah  
I feel like a star  
(Said now I feel like a star)  
Yeah  
Some kind of beautiful  
(Like a star at night)

I feel like star when we do it like this  
A shot in the dark but I know I can't miss  
The heavens are far, but they've given me wings  
It's some kind of beautiful  
Some kind of beautiful  
I'm lost in your eyes and it's five o'clock  
Where did the night go? I can't stop  
Heaven's a place where the lines get crossed  
It's some kind of beautiful  
Some kind of beautiful
