

James Morrison, Who's Gonna Love Me Now?

How can I fill this empty space?
Is this a love that can't be replaced?
Where am I going to find myself?
So far from you

Watch the whole thing fall so fast
Thought we had something to last
Now there is nothing I can do
If I can't feel your touch

Tell me who's gonna love me if you don't
Who's gonna want anybody feeling this torn?
How can someone shine where you have been
Satisfy this heart you've been living in
Who's gonna love me if you don't?

Who's gonna love me now?
Love me now /3x
Who's gonna love me now?
Love me now /3x
Who's gonna love me now?

If you wanna do and find someone
Leabve me here to be the lonely one
Trying to fool myslef in a alright
So far reom you

Lit the fire and watched us burn
Now it's over lesson learned
Nwo there is nothing left that i can do
If i can't feel your touch

Tell me who's gonna love me if you don't
Who's gonna want anybody feeling this torn?
How can someone shine where you have been
Satisfy this heart you've been living in
Who's gonna love me if you don't?

Who's gonna love me now?
Love me now /3x
Who's gonna love me now?
Love me now /3x
Who's gonna love me now?
