

James Young, Toys For American Boys

I gotta work, I gotta play
I'm living here in the U.S. of A.
Home of the big, land of the free
All power to technology, we got

Production lines, the ways & means
The heavy juice to run the big machines, and
We got the brains, we got the brawn
So make it fast, make it loud
Don't stop now please turn me on
Keep building more & more
Fill up my hardware store with the things I need
I'm charging up my batteries for my

Toys, Toys, Toys for American boys
I can't get enough of my
Toys, Toys, Toys for American boys

Give me machine guns
Missiles & tanks
Numbered accounts in a few Swiss banks
We'll clear up your problems
In a jiffy
We get caught we'll just take the Fifth

Please turn me loose
Keep building more & more
Fill up my hardware store with the things I need
I'm charging up my batteries for my

Toys, Toys, Toys for American boys
