

Jamie Lidell, Big Love

At the verge of the minute
Got no fear anymore
Is that the big love? /2x
Is that the big love at my door?
Well...
Million thing, filling up the page
Filling up the page with plans

You make, you make a big love /2x

Electricity round us baby
Electric love it's time we touch
Some would just insist that you'd be better off alone
But people lie when they don't know /2x

You make, you make a big love /2x
And now I know how love before was just a lie
Yeah baby, it's just a lie!

In middle of the day
Filling up the page, filling up the page with plans
Being loved today, just being loved this way
To mean it, like I mean it
You left me loving c'mon!

You make, you make a big love /3x
And now I know my love before was just a lie
Oh baby a lie!

Feel it baby, fill up .. pages, dance for us
Big love, love it, feel it,
Filling up the pages with my big love
Could it be
you make up, you make up a big love!
Big love, could it be /2x
Big love/4x
Yeah, you got me feeling that I'm lifted off my feet
That I'm lifted off my feet
Big love /8x
This is big love!
Oh, oh, big love!
