

# Jamiroquai, Time Won't Wait

Hey, time won't wait for you  
Keeps on ticking away  
Burning up every day (2x)

She was sleeping at the bus stop  
Ebbing away  
But a magic in her blue eyes  
Told me she had left her daze  
So I asked to share her wisdom  
And there was no doubt  
I told her I was sitting low down on the crest fall  
The future's trying catch me out

She said time won't wait for you  
So do all the things you wanted to  
Better hurry up to get in your stride  
Use your resolution which you've been supplied  
And love won't change you boy, it's true  
I can tell you 'till my face is blue  
Every second screams  
Listen to your dreams  
Ooh, 'cause you just can't stop the clock

On a brick that I was banging open my head  
over my head  
But there's sweet wings on my feet now  
Where once they were made of lead  
Do you hear a message in the music  
I hear it too  
You know, you got your history in the making  
And slowing down won't get you through  
No no

Time won't wait for you  
So do all the things you wanted to  
Better hurry up  
Take it in your stride  
Use your resolution which you've been supplied  
And love won't change you boy, it's true  
I can tell you 'till my face is blue  
Every second screams  
Listen to your dreams  
'Cause you just can't stop the clock

Time won't wait for you  
Keeps on ticking away  
Burning up everyday  
Time won't wait for you  
Keeps on ticking away  
Burning up everyday

Keeps on  
You know and it keeps on  
You know and it keeps on  
It keeps on ticking yeah

Keeps on  
You know and it keeps on  
You know and it keeps on  
Keeps on ticking baby

Time won't wait for you  
So do all the things you wanted to  
You better hurry up

Hey take it in your stride  
Use your resolution which you've been supplied  
Love won't change you boy, it's true  
I can tell you 'till my face IS blue  
Every second screams  
Listen to your dreams  
Ooh, 'cause you just can't stop the clock

You know our times all  
Ticking away yeah  
It's all  
Ticking away yeah  
Time it keeps on  
Ticking away  
Won't stop ticking away  
Time won't wait for you  
Won't wait for you  
Oh won't wait for you.  
No  
That's time
