

# Jamiroquai, Whatever It Is, I Just Can

If I pick it up, can I put it down  
Whatever it is I just cant stop  
For only 20 seconds at a time its all mine  
I got too much pressure  
Got me under its thumb  
And its no fun you can lose  
Now I got a choice but I cant choose  
Insistent as you are  
Is no guarantee that youll go far  
Rock steady if you can  
But Ive never been a steady man  
People wanna shoot you down  
If you cant swim then you will drown  
In sorrow  
Cant get no medical attention till tomorrow  
Sadlands are where I live  
But thats none of your business  
You keep asking and soon enough  
The kids gonna have to get rough  
Maybe Im a speed king  
Push with the foot and Im smiling  
I can glide on the love inside  
And there was you thinking that my hands were tied  
All along I saw you hoping  
I would slip and Im not joking  
The evidence in these events  
Is still your lack of common sense  
Did you really think that I would sink  
Because I like another drink  
Have to get up to get down  
The remedy is in the sound  
Absurdity of your suggestion  
Leaves me asking just one question  
If you are my friend today?  
Why do you wanna hear me say?  
If I pick it up can I put it down  
Whatever it is I just cant stop
