Janis Ian, I Want To Make You Love Me

Friendly stranger look what you do to me Smiling faces and I melt inside singing praises of your company I want to lay me down Stay all through the night

You are too good to be wholly and totally mine You are too good to be slipping away like wine and I'm waiting, praying skating on the edge of the line Let me down easy Let me down easy

chorus:

I want to make you love me and I want to make you smile and I want to be your family for just a little while

I get frightened by the thunder and the lightning roars like a bullet in the pourin rain I get heightened by your wondering arms Lay me downdo it all over again

you are too good to be wholly and totally mine You are slipping away and I'm making you stay and I'm waiting for the sun to shine I go rolling down the incline holding on a lifeline stopping on the edge of a dime Let me down easy Let me down easy

repeat chorus
