

# Jann, Gladiator (piosenka na Eurowizja 2023)

Welcome to the party  
Say hi to everybody  
Paid for by Martini but they're  
Sippin' on Bacardi  
Body's more than just a flesh  
You can sell it for success  
What's your price what's your address  
We can finish at my place

Ever been to Bali?  
I really need some sun  
Such a shame 'bout that tsunami  
I'll have to go to Cali  
I can get you dressed  
Wrap your body in excess  
Give them something to obsess over

You'll love it when I  
Give it to you leave you wanting more  
I know your addiction's attention  
Let's start a show  
Is it everything and more  
Than you were hoping for?  
Show us something we ain't never  
seen before

Smash your competition baby  
Show us some good entertainment  
Victory's your only payment  
Gladiator gladiator

Welcome to the party  
I know it's kinda funny  
That everyone is acting  
Like they know you personally  
Just play along  
Be nice and all  
You won't get far  
Being on your own

They've all been dying  
for a little drama  
Their favourite stars  
Getting out of coma  
To fill the news  
With 90's nostalgia  
It will take more than just  
A pretty face to top that

Give it to you leave you wanting more  
I know your addiction's attention  
Let's start a show  
Is it everything and more  
Than you were hoping for?  
Now show us something we ain't never  
seen before

Smash your competition baby  
Show us some good entertainment  
Victory's your only payment  
Gladiator gladiator

Fake it till you make it  
Mask on never take it off

Wear it till wearing it feels natural  
Whatever you tell yourself it's not true  
Power's what I make it  
Pixels like it's 8-bit  
I'm picking your new favourite  
You buy it and I savour it
