

# Janove Ottesen, Down To The Vertigans

I'm heading down to the Vertigans  
I'll pick you up, when I come by  
He said, this season has been extraordinary  
But, there's no particular reason why  
I'm heading down to the Vertigans  
He said, he sure could use a hand  
It's a good time, to set the pigeons free  
These are the good times for the whole industry  
As long as the rain keeps pournig,  
you'll have your fields of green  
And as long as the sun keeps shining,  
on your way  
Keep your engines running, once you start  
Keep your radio tuned to the national charts  
You listen to it, whether you like it or not  
When you stroll down to the Vertigans  
So, we're heading down to the Vertigans  
And of course, we should've been there by now  
But, the local club is doing so fine this year  
I say we drop in, and give our support
