

# Japan, Adolescent Sex

The sidewalk's trading love  
As subway lights grow brighter  
We're just another hype  
But the pressure's getting harder

Get on up, get on up  
Take it much higher

Get on up, get on up  
Take it much higher

A lovers' etiquette  
Make love on first impression  
And adolescent sex with juvenile intentions

Get on up, get on up  
Take it much higher

Get on up, get on up  
Take it much higher

Whatever gets you through the night  
Just keep on dancing  
Whatever gets you through the night  
Just keep on dancing  
Whatever gets you through the night  
Just keep on dancing  
Whatever gets you through the night

Get on up, get on up  
Take it much higher  
Get on up, get on up  
Take it much higher  
Get on up, get on up, get on up  
Take it much higher  
Get on up, get on up, get on up  
Take it much higher  
Get on up, get on up, get on up  
Take it much higher

Well, the lady buys a thrill  
Excitement in succession  
But a heartache won't partake  
In articulate obsession

Get on up, get on up, get on up  
Take it much higher  
Oh yeah!  
Get on up, get on up, get on up  
Take it much higher

Oh, well, pretty things at rest  
No courtesy surprising  
For love is heaven blessed  
All catastrophies denying

Get on up, get on up, get on up  
Take it much higher  
Get on up, get on up, get on up  
Take it much higher

Just keep on dancing  
Whatever gets you through the night  
Just keep on dancing

Whatever gets you through the night  
Just keep on dancing  
Whatever gets you through the night

Aw, when you're out on the street  
With your lovers infections  
Counting possibilities by elimination  
And your body's still damp  
From your one-room apartment  
And your heartache remains, when  
Love's not the antidote  
You'll submerge again  
Emerge again  
Just get off the street!

Whatever gets you through the night  
Just keep on dancing  
Whatever gets you through the night  
Just keep on dancing  
Whatever gets you through the night  
Just keep on dancing  
Whatever gets you through the night

Get on up, get on up, get on up  
Take it much higher  
Get on up, get on up, get on up  
Take it much higher  
Get on up, get on up, get on up  
Take it much higher
