Jason Upton, Is There Room

Is there room in your womb young woman Is there room in your womb for a child?

Ive seen the prophesy being fulfilled live heard the song of the angels Gods sending peace and goodwill Is there room Is there room for a child

Is there room in your inn young man Is there room in your inn for a child

Ive seen the prophesy being fulfilled live heard the song of the angels Gods sending peace and goodwill is there room is there room for a child

How long will we push our children away Is there room in our world for a new word today A holy child from Gods right hand Is a holy word from God to man But is there room Is there room for a child
