

Jeff Healey, Baby's Lookin' Hot

You're sitting there all messed upped girl and you just keep leading me on,

you're looking over my shoulder child but,
don't you make me wait too long

Anything could be possible like guess she see the look in my eyes,
would you think I'm responsible if my hands start to wave it goodbyes

well my baby's lookin' hot, well I don't know if I last,
well my baby's lookin' hot, well I've been singing bad,
well my baby's lookin' hot, well I don't know where to run,
well my baby's lookin' hot, well I know it won't be long to last

You know that perfume you're wearing girl it always does something in me,
now just but on some music child and child n' we'll just wait and see

Anything could be possible like guess she see the look in my eyes,
would you think I'm responsible if my hands start to wave it goodbyes

well my baby's lookin' hot, well I don't know if I last,
well my baby's lookin' hot, well I've been singing bad,
well my baby's lookin' hot, well I don't know where to run,
well my baby's lookin' hot, well I know it won't be long to lie
