

Jennifer Kae, Coffee cup

Another day in the same place and it's raining
put on my face got my space and I am waiting
today's the day that I might say the lines I'm thinking
If I am right, he'll be on time, I know what to say to him
and then he walks in

Ref. You got me starring in my coffe cup,
when you're near you know I can't look up
If I see you could loose my mind and I feel like a child again
by the time I got myself back together then you're gone
you're gone

you got me starring in my coffe cup
Stupid girl lost my nerv
what am I doing?

I look away, I can't stay and I feel so foolish
another day in the same place and it's raining
put on my face, got my space and I am still waiting
and then he walks in

Ref. You got me starring in my coffe cup,
when you're near you know I can't look up
If I see you could loose my mind and I feel like a child again
by the time I got myself back together then
you're gone

you're gone
you got me starring in my coffe cup
when you're near you know I can't look up
If I see you could loose my mind and I feel like a child again
by the time I got myself back together then

you're gone
you're gone
And suddenly there you are infront of me,
you're asking me my name
we talk and laugh, you're telling me,
that you feel the same
back to the same cafe I still remember everyday,
when I was afraid to say

Coffe Cup
when you're near you know I can't look up
If I see you I can loose my mind and I feel like a child again
by the time I got myself back together then

you're gone
you're gone

Coffe Cup

I'm loosing
yea I'm loosing my mind
and I feel like a child again
then back together then
you're gone
you're gone
