

# Jennifer Lopez, Forever

Forever, forever  
Forever, forever  
Forever

You could stop the clock  
That wouldn't be time enough  
You could let the night turn to morning  
I still would be wanting more of your love  
There just ain't enough days in a week, week  
Weeks in a month, month  
Months in a year  
How can I make it clear

I wanna be with you  
I wanna be with you  
And feel the heat with you  
And feel the heat with you

I'm flying  
I'm weightless  
I'm floating in the distance  
Don't rush it, be patient  
I'm gonna stop the hands of time, I will

Follow me, follow me, follow me, follow me, follow me  
If it feels like this, it's gotta be right  
Follow me, follow me, follow me, follow me, follow me  
Don't let it be over tonight, over tonight  
Follow me, follow me, follow me, follow me, follow me  
If it feels like this, it's gotta be right  
Let's do it forever  
We could do it forever  
I could do this forever  
I could do this forever

Forever, forever  
Forever, forever  
Forever

Give me all your life  
And I'd ask you for even more  
You can't offer me a part of your body  
'Cos honestly  
It's just not enough anymore  
Let's get lost in the moment  
You know you want it  
What you waiting for?

I wanna be with you  
I wanna be with you  
And feel the heat with you  
And feel the heat with you

I'm flying  
I'm weightless  
I'm floating in the distance  
Don't rush it, be patient  
I'm gonna stop the hands of time, I will

Follow me, follow me, follow me, follow me, follow me  
If it feels like this, it's gotta be right  
Follow me, follow me, follow me, follow me, follow me  
Don't let it be over tonight, over tonight  
Follow me, follow me, follow me, follow me, follow me

If it feels like this, it's gotta be right  
Let's do it forever  
We could do it forever  
I could do this forever  
I could do this forever

Forever, forever  
Forever, forever  
Forever

Can you tell me what it is you're waiting for  
Can you tell me what it is 'cos I don't know

Let's go  
Come on, baby, just take my hand  
Let's go  
Why you lookin' like you don't understand  
Let's go  
That's it, I'm gonna make this easy  
Let's go  
And that ain't me, believe me  
But just

Follow me, follow me, follow me, follow me, follow me  
If it feels like this, it's gotta be right  
Follow me, follow me, follow me, follow me, follow me  
Don't let it be over tonight, over tonight  
Follow me, follow me, follow me, follow me, follow me  
If it feels like this, it's gotta be right  
Let's do it forever  
We could do it forever  
I could do this forever  
I could do this forever

Forever, forever  
Forever, forever  
Forever, forever  
Forever, forever

Let's go  
Forever, forever  
Forever, forever  
Let's go  
Forever, forever  
Forever, forever  
Let's go  
Forever, forever  
Forever, forever  
Let's go  
Forever, forever  
Forever, forever  
Let's go
