

# Jennifer Lopez, I'm Real (Nate Dogg Mix)

[J. Lo (Nate)]

Now only God can hold me  
(You make me go "baby")

[Jennifer]

I've seen so many men and it's like they're all the same  
My appetite for loving is now my hunger's pain  
And when I'm feeling sexy who's gonna comfort me  
My only problem is their insecurities

[Nate Dogg]

Tell me who is that girl, standing cross the way  
She like what I got, got, got, watch her become my slave  
Baby girl it's me, yeah that crazy nigga Nate  
I won't 'lax so don't talk back let's be on our way

(Chorus)

[Nate Dogg]

You make me go "baby, baby," cause you're a sexy girl  
You make me go "baby, baby," cause you're a sexy girl  
You make me...

[Jennifer]

Now people loving me, and hating me, treating me ungratefully  
But not knowing that they ain't making or breaking me  
My life I live is to the limit and I love it  
Now I can breathe again, baby, now I can breathe again

(Chorus x 2)

[Nate Dogg]

You make me go "baby, baby," cause you're a sexy girl  
You make me go "baby, baby," cause you're a sexy girl

(Bridge C till fade)

[Nate Dogg]

You make me, eww  
You make me go

[Nate Dogg]

Watch out 'fore I ball  
I'm looking for a girl who's got it all  
Ain't flashing no bills  
Just testing my skills  
I'm looking for a sexy girl to take and peel

(Chorus)

[Nate Dogg]

You make me go "baby, baby," cause you're a sexy girl  
You make me go "baby, baby," cause you're a sexy girl
