

Jennifer Lopez, This Time Around

Tekst piosenki 'This Time Around' z albumu 'This Is Me...Now' od Jennifer Lopez (premiera 16 lute

All my cards laid out
I'm going all in right now
No more playin' around
Time to do what we talkin' 'bout
No bluffs, no act
What they know about a love like that?
We got it bad, that's a fact, that's a fact

All that fake shit you can't sell me
Nothing you can tell me
I've been waiting so long, finally found it
Ain't no way, baby, we can live without it
All that bullshit just don't phase us
All the hate couldn't break us
'Cause when you know better, you do better
We get to have a do-over forever

This time around, we gon' do it right
We gon' do this shit for the rest of our life
This time around, we gon' make it real
We don't give a fuck 'bout how they feel
This time around, do it how we like
We gon' have the best time of our lives
This time around, we gon' seal the deal
We don't give a fuck 'bout how they feel

This time around, this time around
This time around, this time around
This time around, this time around
This time around, this time around
This time around, this time around
This time around, this time around

Baby, if you can
Can you take the time?
To put me first
To ease my mind
To cherish this
Cherish it for life
Never take for granted
That I'm your wife

All that fake shit you can't sell me
Nothing you can tell me
I've been waiting so long, finally found it
Ain't no way, baby, we can live without it
All that bullshit just don't phase us (Don't phase us)
All the hate couldn't break us (We're stronger)
'Cause when you know better, you do better
We get to have a do-over forever

This time around, we gon' do it right
We gon' do this shit for the rest of our lives
This time around, we gon' make it real
We don't give a fuck 'bout how they feel
This time around, do it how we like
We gon' have the best time of our lives
This time around, we gon' seal the deal
We don't give a fuck 'bout how they feel

(You know this time around, baby) This time around, this time around
(This time around, this time around) This time around, this time around

This time around, this time around (This time, we can do it all)

We gon' put the house in both, both our names
Throw a crazy party, going through the champagne
Still keep it gutta with the matching chains
Now we made it out, ain't nothin' gon' change us
Always on frost
Matching tattoos, kissing with our eyes closed
Everything his and hers, monogrammed robes
Chopper from Paris to the boat in Monaco

This time around gon' be a little different
I ain't feel love in a minute
I ain't feel, I ain't feel love in a minute
I ain't feel, I ain't feel love in a minute
This time around gon' be a little different
I ain't feel love in a minute
I ain't feel, I ain't feel this vibe in a minute
This time around gon' be a little different

This time around, we gon' do it right
We gon' do this shit for the rest of our life
This time around, we gon' make it real
We don't give a fuck 'bout how they feel
This time around, do it how we like
We gon' have the best time of our lives
This time around, we gon' seal the deal
We don't give a fuck 'bout how they feel

(This time around, this time around) This time around
This time around, this time around (This time is gonna be different, baby)
This time around, this time around
This time around, this time around (This time around, we got a family)
This time around, this time around
This time around, this time around (Love came back to me, oh)
