

Jericho Jones, Justin And Nova

Justin and Nova left today
Go with the stake in ev'ry way
Up to the moon
Where they've never been
Up to the sun
In his light machine.

Nova, who came from older time
Shout like the serpent in the sky
Down to the clouds
And the smoke became
Laughin' on earth
In his exceed pain.

On a troubled endlessly
Almost to eternity
Far beyond the stratosphere
Far beyond the stars.

Probably torn and make the gun
Justin and Nova didn't know
Farther alee
As they ought to fly
Farther alee
As they ought to fly.

Somewhere in the universe
You won't find the earthman's curse
Almost to eternity
Far beyond the stars.

Way out to the galaxy
You will find the unity
Were beyond the stratosphere
Far beyond the stars.

Justin and Nova left today
Borrow the stake in ev'ry way
Up to the moon
Where they've never been
Up to the sun
In his light machine.

Somewhere in the universe
You won't find the earthman's curse
Ooh...
