

Jessie J, 5 Down

I've set the scene right
It's almost midnight
The smell of sweetness, in the air
Candles burning high
And it's cold outside
Please run your fingers, through my hair

I wanna feel you
I wanna smell you on my skin
I wanna see you
I wanna hear you whispering
I wanna taste you
Baby like it's our first time
5 down, and the sixth sense is mine

'Cos you got me going oooh
'Cos you got me going ahhh
No matter what you do
Baby my sixth sense is you, yeah
You got me going oooh
You got me going ahhh
No matter what you do
My sixth sense is you

Bath water steaming
I wanna taste your lips
And when I was dreaming
Come on, let's take a dip
Baby please talk to me
Let me hear your voice
Caressing my skin, oh
I can see your body
So let it begin

I wanna feel you
I wanna smell you on my skin
I wanna see you
I wanna hear you whispering
I wanna taste you
Baby like it's our first time
5 down, and the sixth sense is mine

'Cos you got me going oooh
'Cos you got me going ahhh
No matter what you do
Baby my sixth sense is you, yeah
You got me going oooh
You got me going ahhh
No matter what you do
My sixth sense is you

I wanna feel you, smell you, see or hear,
Taste ya, baby 5 down
I wanna feel you, smell you, see or hear,
Taste ya, baby 5 down

'Cos you got me going oooh
You got me going ahhh
No matter what you do
Baby my sixth sense is you, yeah
You got me going oooh
You got me going ahhh
No matter what you do
My sixth sense is you
