

Jessie Reyez, FOREVER (featuring 6LACK)

Passwords

That means you love me
I can give you what you ask for
Say you need a shooter
I can do it from the half court
I can change your life up
Painting murals on your passport (Louie)
Future kids all on the dashboard
Ooo
I like every flaw I see in ya
This is all new
But I hope I got what you need too
(I hope I got what you need)

Cause sometimes somebody loves somebody
But that body don't love 'em back
And it's easy to say that you didn't know
You didn't know what you had
But you don't
You're educated
You know
That they don't make 'em
Like me
Any more
So you pull me in close
And say

Stay

Forever
(I think you should put your bag down you should never leave)
Baby you should stay forever
(I think you should put your bag down you should never leave)
Baby you should stay
Forever ah ah ah ah ah ah
Forever ah ah ah ah ah
Forever ah ah ah ah ah ah
Forever ah ah ah ah ah

Passwords passports

Imma have to treat you like a landlord
I want you to stay
Stay the moment
Got to put it on cam-cord
She a all star porn star
Throw it up and catch it off the back board
I'm give you everything that you asked for
Like you kick down the door on some task force shit
Credit card numbers four-digit pin social security
You could be happy you should be happy
Long as you here with me
They could never give get between us
Said we would never ever leave us
That was a while ago

Now sometimes somebody loves somebody
But that body don't love 'em back
And it's easy to say that you didn't know
You didn't know what you had
But you don't
You're educated
You know
That they don't make 'em
Like me
Any more

So you pull me in close
And say

Stay
Forever
(I think you should put your bag down you should never leave)
Baby you should stay forever
(I think you should put your bag down you should never leave)
Baby you should stay
