

Jessie Ware, Spotlight

Ain't enough to say that i think of you
words can never do the things that I ended them to
tell me when I'll get more than a dream of you
cos a dream is just a dream I don't wanna sleep tonight

do anything to make you stay
do anything to start the day again
if I had everything my way
we'd travel back and forth and back again

if only I could let you go
if only I could be alone
I just wanna stay
in the moonlight
this is our time in the spotlight
if only I could let you go
if only I could be alone
I just wanna stay
in the moonlight
this is our time in the spotlight

it's like you never even left
I need a moment, just a moment
blow me a kiss I'll catch your breath
give me a moment
so devoted

if only I could let you go
if only I could be alone
I just wanna stay
in the moonlight
this is our time in the spotlight
if only I could let you go
if only I could be alone
I just wanna stay
in the moonlight
this is our time in the spotlight

breakdown /8x
can't keep the sun from rising
can't keep the heart form beating
can't stop you from believing
can't keep the sun from rising
can't keep the air we're breathing
can't stop your heart form leaving

if only I could let you go
if only I could be alone
I just wanna stay
in the moonlight
this is our time in the spotlight
if only I could let you go
if only I could be alone
I just wanna stay
in the moonlight
this is our time in the spotlight

ia a dream is just a dream
and a dream is just a kiss
then tell me what it means
tell me what this is
and if a touch is just a touch
that a touch just ain't enough
tell me what is means

tell me you're in love

tell me when I'll get more than a ream of you
tell me when I'll get more than a ream of you
