

# Jessie Ware, Till The End

Don't tell me I've been dreaming  
When you're standing there in front of me  
It's just the simple things you see  
It's all the things you do to me

When everything is crazy  
You find a way to make it right  
Yes, I love  
And I love  
And I love  
And I want you  
It's gonna be till the end of time

You only have to look my way  
For me to know it's not in fail  
And even when it's raining  
I don't see the clouds again

When everything is changing  
When I'm crippling up against the tide  
Yes, I love  
And I love  
And I love  
And I want you  
It's gonna be till the end of time  
I wanna be right by your side  
I'm gonna love you day & night  
It's only you that makes it right

When everything is crazy  
You find a way to make it right  
Yes, I love  
And I love  
And I love  
And I want you  
It's gonna be till the end of time  
Gonna love you day & night  
It's only you that makes it right
