## Jesus Jones, Need To Know

i need to know what will make us happy? and i need to know will you always love me?

i need to know where on earth is elvis? i need to know why you even listen to this

'cause it's no good taking second best

i need to know where all the energy goes and i need to know are there really U.F.O.s?

'cause it's no good taking second best it's no good when you put it to the test

i need to know will i really go to hell? i need to know if we only cry for ourselves

i DON'T need to know who kill laura palmer? i need to know what's the winning formula?

'cause it's no good taking second best it's no good when you put it to the test
