

Jhameel, Feisty

Tell me what the beat says
Check you from the back
I can tell that you're vibin' from the way that you move
I sneak a glance now you're walking right past
Pardon me, miss, don't mean to be so rude, I'm loving how you dance

I say ah
Are you coming back to me
It's a disastrophe
Like come on, are you really feeling apathy
I got the moves, make you come on running after me

'Cause baby
Oh my, well it's unfair
Looking like that, make a gentleman stare
Oh my, oh my, oh my, oh my
FEISTY

Show me how you work, love
You make it hot
Make it last, make it feel like
I don't even need to think hard
After that, girl, I'm never going back
I'm addicted to the way that you can love me and then walk on

I say ah
Are you coming back to me
It's a disastrophe
Like come on, are you really feeling apathy
I got the moves, make you come on running after me

'Cause baby
Oh my, well it's unfair
Looking like that, make a gentleman stare
Oh my, oh my, oh my, oh my
FEISTY

Oh my, well it's unfair
Looking like that, make a gentleman care
Oh my, oh my, oh my, oh my
FEISTY

Oh my and I'm on fire
Oh my body's burning up
Oh my god the way you work
Those hips, those thighs, your lips, your body go

Oh my and I'm on fire
Oh my body's burning up
Oh my god the way you work
Those hips, those thighs, your lips, your body go

On my misbehavior
Tell me where you're going darling
You must be my savior
Free me of my yearning darling

On my misbehavior
Tell me where you're going darling
You must be my savior
Free me of my yearning darling

Tell me what the beat says
Check you from the back
