

# Jim James, A New Life

Hey, open the door  
I want a new life  
Hey, and here's what's more  
I want a new life, a new life  
Babe, let's get one thing clear  
There's much more star dust when you're near  
I think I'm really being sincere  
I want a new life, ummm, a new life  
With you

Mhm, hey, open the door  
I want a new life  
Hey, and here's what's more  
I want a new life, a new life  
Babe, let's get one thing clear  
There's much more star dust when you're near

I think I'm really being sincere  
I want a new life, ummmm, a new life  
With you

Can't you see a perfect picture  
You and me  
But you know, it won't come easy  
And what's more,  
It's worth looking for, uhu

Babe, open the door  
And start your new life,  
Oh, your new life  
Babe, on the shore  
And start your new life  
Your new life, once more.
