Jim Reeves, You Are My Love

You are my darlin'
There's no one but you
And to you I'll be true
Our whole life through.

Heaven in smilin' Because you love me It' as plain as can be You're my love.

Ask the stars that shine There above you Who loves you And needs you tonight. They'll tell you it's I who love you And I'm lonely when You're out of my sight.

You are my darlin' There's no one but you And to you I'll be true Our whole life through.

Heaven in smilin' Because you love me It' as plain as can be You're my love...
